Happy Birthday

- Ayesha Khalid
- Raj Ali Soni
- Deepal Parvane
- Ahmed Ali
- M Ayaan
- Umeehra Isran

**BEDTIME:**

B is for BEDTIME: On average children need 8 to 10 hours of sleep each night. Sleep is important for many reasons. Lack of sleep can cause kids to be hypersensitive, impatient or cranky. It is more difficult for children to concentrate and learn when they are tired. Some doctors even believe that during sleep the brain “flies away” what is learned during the day. Encouraging quiet activities such as reading just prior to bedtime offers a transition that helps children relax. Sweet Dreams!
