- Long with three steps.
- Story sums.

Science:

- Thermal insulators
- Air as an insulator

Islamiat:

- Kindness to animals
- Surah-e-Nas

Social Studies:

- Fairness
- Climate

Activities / Events:

February began with a flurry of fun activities.

The students collected information about a yak and thoroughly enjoyed writing factual information on the animal.

In Science we proved insulated objects were used to show the preservation of heat. Oiled hands were immersed in ice cold water to learn that blubber act as an insulator.

The students built up a story related to fairness by writing about the pictures they brought related to the topic.

Students made a weather vane with a paper plate and cup.

A booklet in Islamiat was made to make the students aware of the names of different surahs and their meanings.

Pets were brought to school and the students discussed how to be kind to them.
